

Financial Consent

Dr Lisa-Marie Hynynen Private Surgical Assistant

In the majority of operations, another medical practitioner is required to assist your primary surgeon, Dr Leake. This is my role.

The Assistant's fee is approximately one-fifth of the Surgeons fee and generally generates no out of pocket expense. I am a registered **no-gap** provider.

Patients with appropriate private health cover

Generally, you will not be required to do anything.

You will not receive an invoice, you will not be required to make a direct payment and there will be no out of pocket expenses for my service.

I will send your account to your health fund and they will pay me directly.

There is no need to contact me for a specific quote.

Patients with no private Health Cover, still serving waiting period or overseas patients

There will be a small associated gap payment required.

Generally, Dr Leake's rooms will include my fee in your preoperative estimate and will collect payment on my behalf.

Please contact Dr Leake's rooms or email me if you would like a specific cost estimate.

Any quote given is an estimate only. Each procedure has its own item numbers and costs.

If Dr Leake changes your operative item numbers due to an unexpected change at the time of your procedure, my numbers and fee must also change.

Thank you

Dr Lisa-Marie Hynynen
